Group Manager - Contracting (Ashburton Based)

Full autonomy to lead and manage Roadmarking and Traffic Management business units.

The **Spray Marks Group** is a dynamic and progressive group of companies that undertake a range of activities from road marking and related services, traffic management and sign hire, signs manufacture, plant maintenance, engineering and manufacturing.

We are currently searching for a **Group Manager - Contracting with extensive experience in business management** and operational familiarity **preferably within the contracting industry.**

Reporting to the Managing Director you will have autonomy over the key operations and profit centres, including 2 Roadmarking companies with a satellite branch and a Traffic Management division.

The key purpose of this role is to profitably and successfully manage the Spray Marks Group Contracting Division in accordance with the company's vision, values and mission, the overall Group key financial objectives and to drive forward improvements in overall operational efficiency and deliver effective, on target contract completion.

As the successful candidate, you will have proven experience in the following areas:

- Contract/operations management and tendering, including the estimation, planning and programming of work
- Client and customer relationship development and management
- Ability to meet strict deadlines, while encountering environmental interferences
- Accurate and timely completion of all documentation
- People management and culture building
- Minimum intermediate user of MS Word, Excel and Outlook
- Outstanding time management
- Excellent understanding of Health, Safety and Environmental management
- Working knowledge of quality management systems
- Overall business development; and
- Knowledge of roadmarking / contracting industry (desirable but not essential).

The above experience will ideally be backed up with:

- A solid and successful track record of effective people management and contract delivery
- Senior level experience in managing the Commercial/Financial side of a business or business unit with solid experience in Business Development.
- A minimum of 10 - 15 years management experience ideally within the contracting industry (or similar industry).
- Tertiary qualification (Bachelor of Business Studies, Management, NZCE, Diploma or BE Civil)
- Roading industry knowledge and technical aptitude
- In-depth knowledge and background in Transit and Roading contracts

You will need to be operationally focused and display strong business management skills.

Ideally you will be in a similar position within the industry or have managed a large business unit in an operations or contract management role.

In return for your experience, knowledge and professionalism you will be working for a well-known and driven company and be rewarded with an executive package commensurate with experience.

This is a great opportunity for the successful applicant to become part of an exciting industry.
