

Engineering: Welder/Fabricator

Spray Marks Engineering manufacture, fabricate and provide a wide range of industrial maintenance and engineering services to clients across the South Island and abroad.

We are looking to grow our Ashburton based team and are seeking applications from motivated and reliable individuals who are looking for a new challenge.

Our ideal applicant will have the following;

- Fabrication and machining experience (a trade qualification is desirable)
- Experience in transport engineering
- Commitment to maintaining a high standard of health & safety
- A high standard of welding and workmanship
- Ability to read and understand drawings
- Ability to problem solve and identify solutions
- Self-motivation with a great attitude
- Full Class 1 driver's licence

We offer a great working environment, competitive hourly rates and health insurance after six-months of joining us.

How to apply:
