

Roadmarking and General Works Assistants

Roadmarking Assistants:

We have opportunities available for Roadmarking Assistants to join our Roding team, based out of our Christchurch branch, to support us to fulfill our Christchurch and our away contracts (outside of Canterbury).

Roadmarking Assistants are responsible for assisting road marking operators to operate road marking machines/vehicles and participate in manual work in all weather and traffic conditions.

General Works Assistants:

Our General Works team offer a broad range of services including RRPM installations & maintenance, signs installation, water blasting, green/coloured surfacing, small/manual line marking and guardrail.

We are looking for a General Works Assistant to join our team who will be responsible for assisting operators with a wide range of tasks including setting up site for works to be completed, operating road marking and other machinery and equipment and measuring and recording work completed.

Ideally you will have/be:

- A Full Class 1 driver's licence. Preference given to those with a Class 2 Full licence.
- A current STMS qualification or Traffic Control Level 1 cert
- Mechanically minded and interested in learning about operating Roadmarking machinery.
- Flexible about when and where you work – working in road marking can include working extended hours, travel within the South Island and a mixture of night and day work.
- Physically able and interested in a long-term stable position.
- Able to pass pre-employment and regular drug testing.

In return we offer:

- Long-term stable employment
- Ongoing training and development
- The opportunity to learn and progress into a Roadmarking Operator or General Works Operator role.
- Modern, well serviced equipment
- Health Insurance for you and your family after six-months
- Competitive hourly rate
- Great team environment

To apply, complete the application form <https://www.surveymonkey.com/r/Spraymarks> or send a current CV to kellies@spraymarks.co.nz
